	Bachelor’s Degree (or higher)	
	Two years as a CLTM technologist	Three years as a CLTM technologist
	30 Advanced Practice LTM CEUs	50 Advanced Practice LTM CEUs
	Documentation of 50 technical reports	Documentation of 50 technical reports
	¹ Continuation of the Practice Track will be evaluated annually.	
	NA-CLTM Credential awarded after successful completion of the NeuroAnalyst- CLTM Exam.	

The candidate must have reviewed the long-term (LTM) EEG and created the technical report. Technical report criteria must include display settings and an EEG description, must cover a minimum of one 24-hour period, and be written per the [2012 ACNS Terminology](#), the [2015 ACNS Consensus Statement on Continuous EEG in Critically Ill Adults and Children](#), and per [ILAE Seizure Classifications](#).

1. Documentation of 50 LTM cases must be submitted with the application. The cases must represent unique EEG recording sessions (can be either 1 Daily report within a multi-day recording session or can be 1 summary report of a multi-day recording session; cannot be 3 Daily reports for one patient recording). A documentation form is available on the ABRET website under NeuroAnalyst-CLTM Eligibility Requirements.
2. 50 cases must have been monitored within the last 5 years and are only counted after the candidate obtained his/her CLTM. Patients must be age 1 year or older at the time of recording.
3. Documentation forms will be randomly audited. Incomplete or incorrect information may delay or negate eligibility.
4. *Advanced Practice LTM CEU’s must be acquired within 5 years of taking the NA-CLTM exam (ASET, ACNS, AES, etc.)
5. After 3 unsuccessful attempts to pass the examination, the candidate will need to wait 6 months and submit 10 advanced practice CEUs.
6. The NA-CLTM credential is awarded for five years.

*Please refer to reference document “[ABRET Advanced Practice LTM CEU Qualifications](#)”, located in the NA-CLTM Candidate Handbook. (Coming Soon)
